DECLARATION UNDER 37 C.F.R. §1.175

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

We, Seiji Suzuki, Hidetoshi Nakane, Masato Itakura and Toshihiro Inayoshi, the undersigned Petitioners, hereby declare that we reside at 77-2, Jinden, Maebayashi-cho, Toyota-shi, Aichi-ken, Japan, 79-1, Tanada, Wakabayashihigashi-machi, Toyota-shi, Aichi-ken, Japan, 86-28, Kamisotone, Wakabayashihigashi-machi, Toyota-shi, Aichi-ken, Japan and 8, Nakaneyama, Takaoka-honmachi, Toyota-shi, Aichi-ken, Japan, respectively, which addresses are also our respective post office addresses. We also declare that we are citizens of Japan.

We believe we are the first, original and joint inventors of the subject matter which is claimed in this application for reissue and for which reissue of the original Letters Patent on the invention entitled "SEAT APPARATUS WITH AIR FLOW" is sought. We do not believe that the invention was ever known or used before the invention thereof was made.

FILED: 66210860

The entire right, title and interest in and to United States Letters Patent No. 6,062,641, granted on May 16, 2000 and entitled "SEAT APPARATUS WITH AIR FLOW" is vested in Aisin Seiki Kabushiki Kaisha, a corporation existing under the laws of Japan and having a place of business at 1, Asahi-machi 2-chome, Kariya city, Aichi pref., Japan.

Petitioners further declare the following.

We verily believe United States Letters Patent No. 6,062,641 to be at least partly inoperative or invalid for the reason that we claimed less than we had the right to claim in the patent.

We acknowledge the existence of at least one error in the original patent as follows.

Claim 1 of the originally filed application included a recitation that the groove in the filling member contains a material different from the filling member. Claim 1 of the patent includes the same recitation. We believe it was an error to include in Claim 1 of the original application this recitation of the material in the groove that is different from the filling member as it resulted in us claiming less than we had a right to claim in patent Claim 1.

Each of the new independent claims accompanying this application for reissue is based on patent Claim 1 and addresses the aforementioned error by defining the invention in a manner that does not require a material in the groove that is different from the filling member.

This application for reissue is being filed within two years of the issue date of the original patent and so broader claims than those in the issued patent are permissible.

Every error in the patent corrected in this application for reissue, up to the time of filing this Declaration, arose without any deceptive intention on our part.

We have reviewed and understand the contents of the specification, including the claims, of this application for reissue.

We hereby claim the benefit of the filing date of Japanese Application No. 9-307520 filed on November 10, 1997 under the provisions of Title 35, United States Code § 119. Priority based on the aforementioned Japanese application was claimed in the original Letters Patent.

We acknowledge the duty to disclose information of which we are aware that is material to patentability in accordance with Title 37, Code of Federal Regulations, § 1.56.

We hereby appoint Platon N. Mandros, Registration No. 22,124, Alan Kopecki, Registration No. 25,813, Matthew-L. Schneider, Registration No. 32,814, and Wendi Weinstein, Registration No. 34,456 to prosecute and transact all business in the U.S. Patent and Trademark Office in connection with the above-identified reissue application.

The undersigned Petitioners hereby declare further that all statements made herein of our own knowledge are true, and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or

both, under section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Respectfully submitted,
